# Conformity

Sharps containers

**NF ISO 23907**  
**NF X30-511**

NF X30 511 is a French requirement for sharps containers.

ISO 23907 is an international standard for sharps containers.

**Made in France**

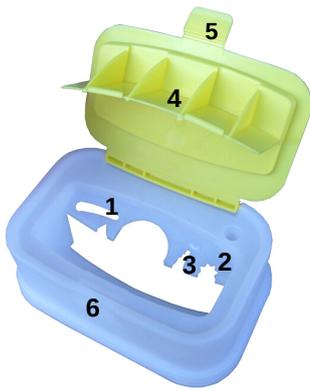

All of our products are made in France, near our HQ.

Our historical range of PREMIUMS sharps containers is composed of a lid with several different control levels to prevent blood exposure accidents : filling limit with a scraper, translucent lid.

# PREMIUMS

Sharps containers

1. Needle removal notches **to be ejected**
2. **Insulin - adrenalin pen injectors notch**
3. Needle removal notches **to unscrew**
4. **Filling limit** with the scraper
